Greetings!

By now, I'm sure you've all heard about the bid package. The Company will release them at 1700 local time. The Shift bid will be delayed one day to 10SEP now. It will still be done electronically using eBid as in the previous Summer '24 Bid.

Just a reminder to

- keep "Standing Bids" ON.
- not put your Standing Bids in too early (you'll have extra lines that will plug up your workspace.
- Monitor the progress yourself as it will not be monitored to the degree the previous bid was.

In solidarity,

Eric, District Chair D101
