News Flash!!

The Winter '24 eBid package will be out shortly. The company promises to have it out by late afternoon – after the YWG bid is done.

The bid will commence on Monday at 0700 with the Leads, followed by Concierge and then Part time. The Full time bid will start on Tuesday morning at 0700.

Just a reminder to have your standing bids turned on before your bid time. If it is not turned on and you do not manually submit at your bid time you WILL be bypassed until you turn it back on.

Also the Arrival function terminates at the curb or a handoff to the other carrier – as they do now. If your next duty is too tight, it is up to Deployment to make it work. Managers, manage. Do not handoff to C-Cart or ITD / Baggage Hall without going through Streamline. Remember, you are not a manager so you should not be doing this.
